

## Information about the processing of personal data at SLU

## Legal basis

When ordering data, the registered agreement with SLU includes the delivery of map data.

Without processing personal data we cannot deliver the service. The agreement gives us the right to process personal data.

SLU has an agreement with the higher education institutions that requires us to save the data, partly to report and investigate any abuse. These are legitimate interests that SLU does not fit within the scope of our government duties, but only to protect our business.

SLU must also handle public documents in the manner required by the Print Rights, Archives, Administration, and Public and Privacy Acts.
